★ KEY INSIGHTS

1 Contract Type

Month to month customers have the highest churn rate at **42.7%**, compared with **11.2%** for one year contracts and **2.8%** for two year contracts.

2 Internet Service

Fiber optic customers have a **41.8%** churn rate, more than twice the **18.9%** rate for DSL customers.

3 Payment Method

Electronic check is the highest risk payment method, with a churn rate of approximately **45.3%**.

4 Customer Tenure

Churn decreases from **47.4%** during the first 12 months to only **6.6%** after 60 months.

The greatest opportunity is improving the experience of **newer customers**. Address **fiber optic concerns early** and provide **incentives for longer term contracts**.
